

900 N. Michigan Avenue Chicago, Illinois

Ten floors above Michigan Avenue, condominium residents retreat to nearly 14,000 square feet of luxurious green, flowering landscape with spacious areas to entertain, grill out or simply unwind while absorbing dramatic views of Chicago's exquisite skyline. Its environmental benefits blend with design qualities expected of a high-end amenity and changes what urban dwellers can expect from their city views. Height variety in plant material presents an unfolding experience from within the garden and creates shadow and depth throughout the seasons when viewed from above.
